Back from Camp Alger.

Drum Major William B. Eddy of the 1st Regiment, Rhode Island Volunteers, arrived home in this city Friday, on a 30-day furlough from Camp Alger. Since leaving the city with the Rhode Island Regiment the tall drum major, who has for some years one of the best members of the 1st Light Infantry, has grown a beard 15 pounds. He is now home on leave, having suffered an injury to his leg during the forced marches from Camp Alger. At the beginning of the war Drum Eddy enlisted with his company, 1st Regiment, and was at once promoted to his present post, a position which he was well fitted by physical and mental qualifications to fill. His furlough expires on the 15th inst., at which time he must be mustered into the 1st Regiment, wherever it may be. He is an expert with the rifle and has a fine qualification in marksmanship.

ONE FAIR DAY.

We expect now to start on our long tramp to Pennsylvania Monday or Tuesday. It goes without saying that there are a number of men who are not looking forward to this trip with any great amount of pleasure. There have been a number of applications for furloughs and quite a number are going to be granted in the cases of men who are ill and will break down if they attempt the march. There is also a disposition to get rid of all the men that have shown themselves physically unable to stand campaigning. There are, too, a certain number of quitters, who have dropped out on every march. These, of course, will be gotten rid of as possible.

to try Capt. Duncan of the 22d Kansas, the surgeon who is accused of desecrating the grave of a Confederate Colonel near Bull Run

Tear and Smile.

"What are you?" said a tear
To a smile playing near.
"With a flickering shimmer,
You transiently glimmer
On the meaningless features of mirth;
But you nothing express
Of the anguish and stress
That make up man's portion on earth."
"You are rather severe!"
Said the smile to the tear,
"For as day, to shine bright,
Needs a background of night,
So grief must be bordered with gladness;
And the light of a smile,
More than once in a while,
Helps a tear to unobscure its sadness."
—Joseph Dawson in The Spectator.

in Camp with 1st Regiment, Rhode Island Volunteers, Camp Meade, Penn., Oct. 15.—The corps review, word of which was sent flying around last night, turned out to be only a review of the 1st Division, through no fault of its own. It was due to the weather that the 2d Division, after awaiting its turn to pass by in review, turned around and marched back to camp. The day, like the majority of its predecessors, has been raw, chilly and threatening, the sky being overcast with rain and wind clouds. Even when the sun appeared at intervals, as it did, the wind cut through overcoats until the shivering chill of the air vanquished the heat of the body and men hurried across the parade ground, running and jumping to keep warm. The hands of the guards were numb with cold, and blue noses were more numerous than red ones.

It had been expected that the review would take place in the morning, but when the order came round it was seen that 8 o'clock in the afternoon was the time set for the massing of the 20,000 odd men in the corps. Our regiment was reviewed by Col. Cook before starting

for the reviewing ground, and it made an even more creditable appearance than it did on the occasion of the first corps review a few days ago. There were more men in line, the added numbers being due to the return of furloughed men, who are arriving in batches of a half-dozen at a time now. The sharp work that has distinguished company drill of late was as distinguishable in the accuracy of motions and the snap of the march as when they went at them. It was three miles transformed.

PAID OFF AND NOW MISSING.

Homesickness Increasing Among Rhode Island Boys.

Camp Meade, Middletown, Pa., Oct. 18. The epidemic of homesickness is increasing. The 1st Rhode Island Regiment was paid yesterday, and to-day one-third of the men are reported as missing without leave. In the 1st Maryland 46 out of 100 reported for guard duty, and 17 in one company were missing.

Private Essex's death from typhoid fever yesterday resulted in the arrest of private Townsley of the Reserve Ambulance Corps. Townsley is in the guard house to await trial by court martial for going to sleep on duty and allowing the patient to wander about the camp in delirium.

Cornett to do likewise. They both tasted of vinegar and went to bed shivering.

Another occurrence, or rather lack of occurrence, of to-day is worthy of more than passing notice. No sick men were sent to the division hospital from the 1st Cavalry. This morning is the first in a month that no sick men were sent from a Rhode Island precinct. The sickness is not more common among the colored than among the white of this race. The demand for hos-

Camp Meade, Pa., Nov. 1.—The first
detachment of the 1st Rhode Island
Regiment to go to the new camp in the
South will start this afternoon.

They go to prepare the camp for oc-
cupation by the regiment and will have
it ready when the rest of the men ar-
rive.

The regiment expects to start by the
middle of next week.

Maj. Bliss will command the detach-
ment, and with him will take 12 com-
pany officers—Capt. Pierce and Lieuts.

Ames, Datzon, Harrington, Rogers,
Mulhern, Burdick, Rooney, Sanderson,
O'Flaherty, Connor and Carr.

The non-commissioned officers will
number 12, and the enlisted men 72, six
from each company.

be Preferred Again

Book by G

WHITE GLOVE

Maj. Barker the second in command this plan seemed to meet with Gen. Cole's approval.

It's another gloomy day, cold and raw, rain and hail alternating in making the continuance of a fire a herculean job. The boys are clustered round the cook fires or around bonfires at the end of the street, for there have been no drills, recall being sounded after each assembly.

A portion of the officers of the regiment will give a complimentary german to the society ladies and gentlemen in Columbia this evening. Maj. Gibbs, one of Columbia's society leaders, and Maj. Bliss have arranged the affair, which is to take place in Clarke's Hall. The field and staff and some of the line officers of this regiment have been invited to attend the function.

of the guard that weren't helping the details with the two prisoners hurried to the cell room and held the prisoners at bay. It certainly was a nerve stirring situation. A score of men fighting to subdue two mad men, an officer wrestling rough and tumble with another and the guard pushing and shoving a score of prisoners back with their musket butts. Voices roused to the pitch of intense excitement, sharp or hoarse with the pitch of brute rage, snarling, convulsed faces, the scraping, swishing grunts of struggling men, mingled with stamping, scuffling and pounding. In the midst of this crisis Lieut. Williams yelled to the corporal of the guard and told him to go to the colonel with the message that another of the additional men were nearer as he could be before the day was possible. Williams was Italian. The colonel forgot the Italian. The Italian forgot the Spanish. He
